

# Knowledge Management and Open Datasets

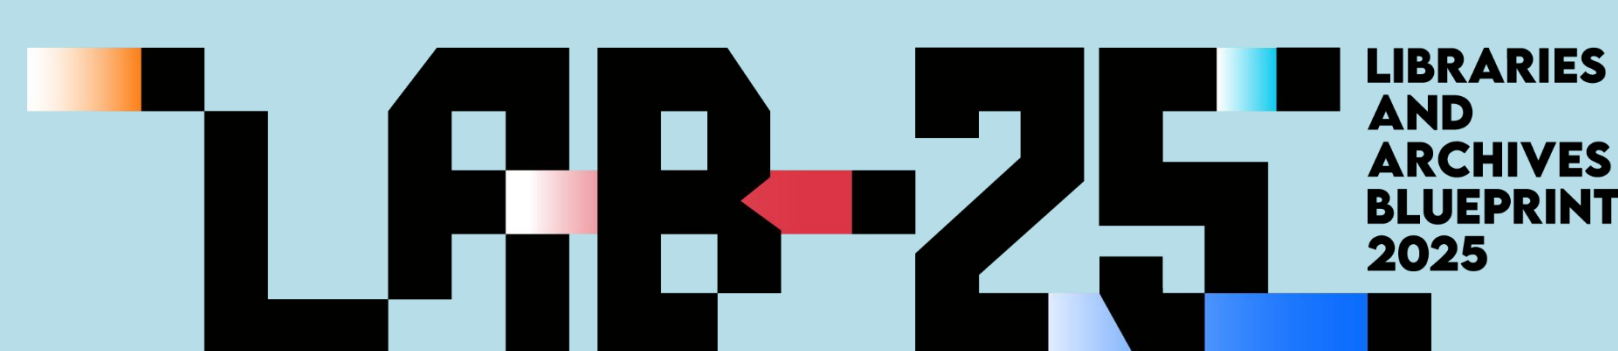

## National Library Singapore's Digital Collections

### [1] LAUNCH OF OPEN DATASETS

In 2022, 10 open datasets, comprising metadata of the National Library Singapore's published digital collection, were launched on Data.gov.sg platform. 15 new thematic datasets based on subject categories will be launched later in 2024.

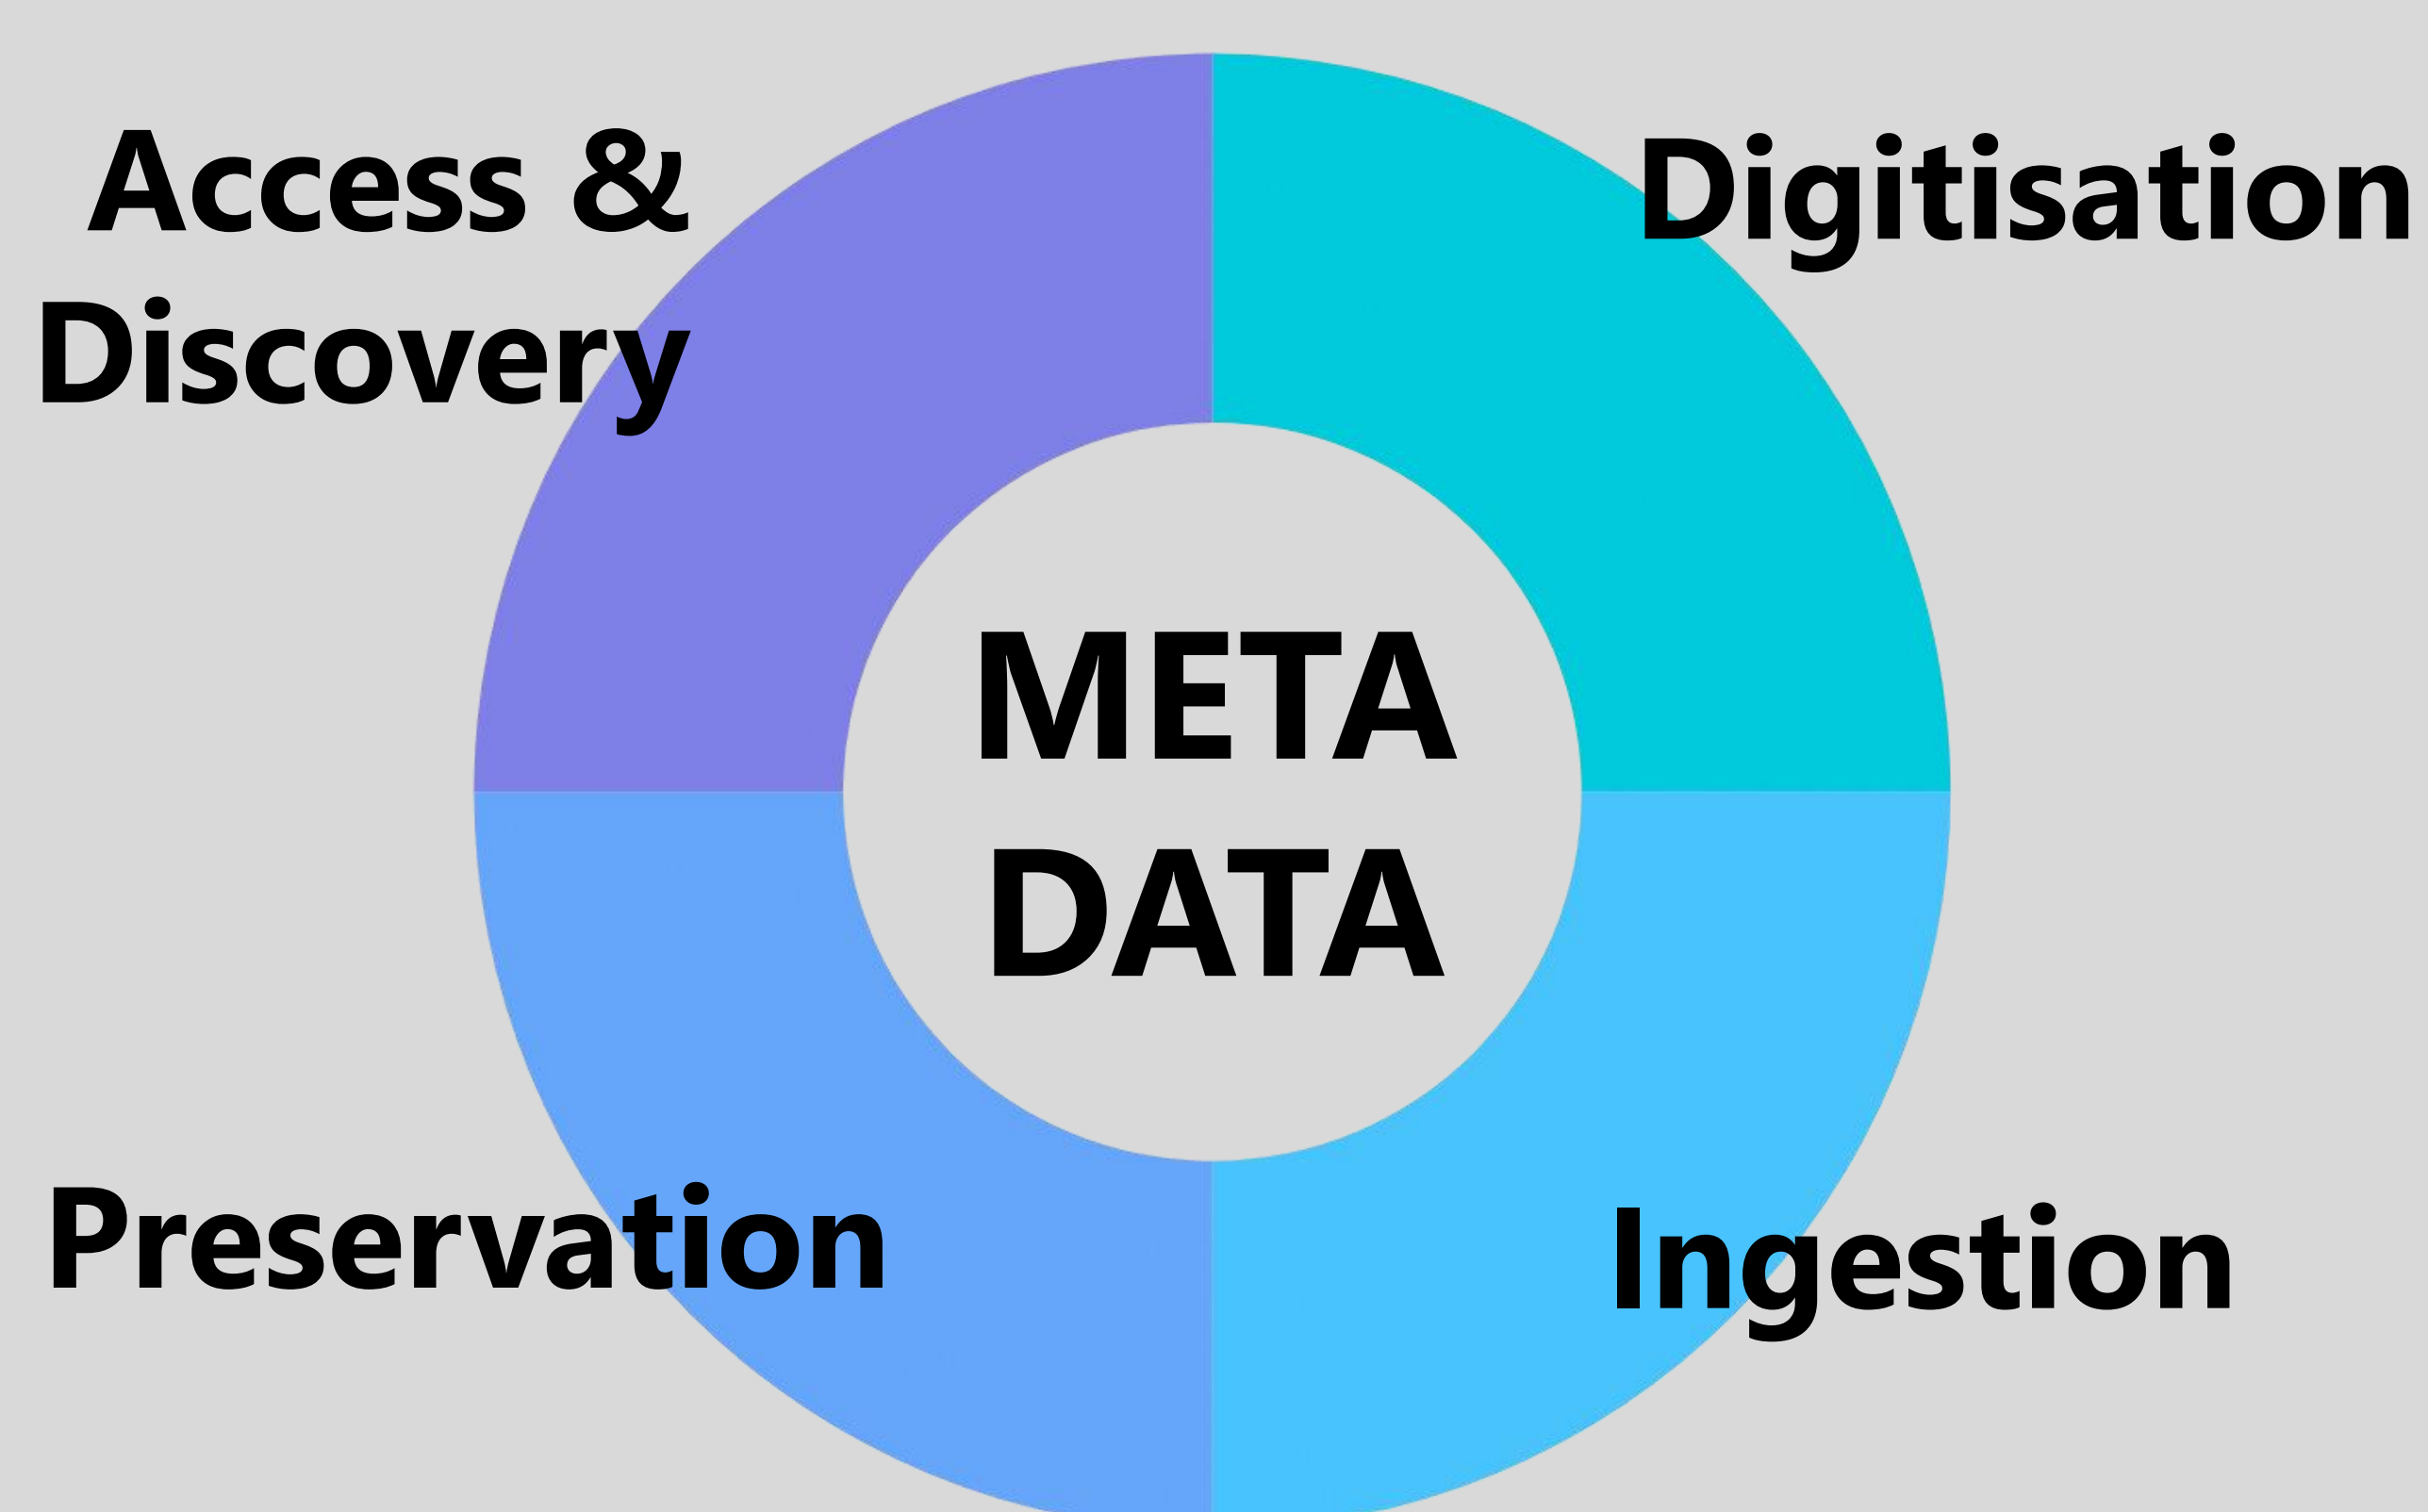

### [2] INNOVATIVE USE OF COLLECTIONS WITH DATA

With the launch of the National Library of Singapore (NLB)'s LAB25 blueprint, it was timely to rethink the National Library Singapore's rich digital collections as open datasets for use in novel ways.

### [3] READY METADATA CREATED THROUGH DIGITAL MANAGEMENT

### [4] GROWING BEYOND METADATA

Potential growth areas for open datasets beyond metadata.

### [5] POTENTIAL USE CASES

Knowledge management of digital collections

Digital humanities classrooms

Data analysis and research
